

HABITA: A HARD HABIT TO BREAK!

A glass box floating above the clouds over Polanco is the showcase for the City's finest events. Mexico City's first design hotel is breathing life into the stagnant hotel scene that greets the modern traveler and offers all of us a sanctuary for relief and relaxation: our own HABITA.

Surrounded by Chanel, Cartier, Hermés, and restaurants of similar recognition, HABITA offers an unparalleled boutique hotel experience.

The thirty-two luxurious rooms and four junior suites outfitted with every amenity imaginable, including custom pieces by TEN Arquitectos, Eames chairs, and a Sony Vega flat TV screen indulge a modern, contemporary design aesthetic.

Our LOBBY Restaurant and AREA Bar will entice your senses with inventive cuisine and will provide you with the ideal zone of comfort for every occasion. At LOBBY you can and enjoy our whimsical menu of casual fare surrounded by Jan Hendrix's modern art, a place not necessarily just to be seen but also to see. Head upstairs to AREA and expect to be seen, not just by Mexico City's scene makers, but also by everyone with 6th floor skyline view. The window-less al fresco space, highlighted by a twelve-foot long outdoor fireplace, redefines the modern concept of a roof-top bar.

On top of that if you are so inclined, retreat to HABITA's own AQUA SPA and enjoy a refreshing swim in the roof-top lap pool, or schedule a taxing regiment of massage, sauna, and choose from a menu of individual treatments.

Discover. Experience. Indulge. HABITA
